

THERMOBOX® S

Is our simplest product. A box that you cool down by putting it in a cold store or using the SDX® cooling plate.

The interior is made entirely of stainless steel with pressed guides and no joints. Insulated with polyurethane, which expands under high pressure and combines the outer and inner containers to form a strong and well insulated unit.

S boxes are ideal for food that is to be served cold as well as for transporting and storing food that is to be heated at a later stage in the process.

TECHNICAL SPECIFICATIONS

Exterior walls: ABS plastic.

Inner container: Welded container in stainless steel.

Guides: Stainless steel, pressed from the inner container.

Insulation: Polyurethane foam.

Door: Internal surface made of smooth and seamless stainless steel. Exterior in ABS plastic.

Wheels: Hot-dip galvanized steel. 160 mm wheels with rubber tires, two braked and two fixed.

Top frame: Stainless steel and PVC corners.

Trolley frame: Rejected list of galvanized steel coated with PVC.

S: Neutral, insulation class IP44.

THERMOBOX® S - NEUTRAL THERMOBOX

A full range of neutral thermobox options which include insulation only.
